Endless Possibilities. Curated Exclusivity.

The contemporary C-suite leadership is dynamic and forward-thinking. The Atlas Executive Desking Suite is conceptualised and designed to empower such leaders to tailor their workspace to their individual preferences and work styles. The entire collection comprises an extensive array of SKUs that can be flexibly combined to create bespoke setups, adaptable to any office layout.

Modular. Adaptable. Choice of classic and contemporary aesthetics.

The Main Tables of Atlas Executive Desking Suite

Trio Table

Elegance. Functionality. Flexibility.

Discover the Atlas collection – where modularity meets elegance. Designed for flexibility, each piece adapts seamlessly to your workspace needs. Statement-making forms combine with ergonomic detailing to deliver both style and comfort. The Atlas range is a dynamic C-suite solution crafted for modern leaders and evolving office environments.

Choice of ERU Units

Space-efficient Configurations

Ergonomic Adaptability

Elevate your work experience with the Atlas range, featuring a **height-adjustable worktop** and ergonomic design elements, including knee clearance in seated positions and handleless push-to-open storage compartments, promoting seamless posture transitions and enhanced workspace comfort.

Atlas Trio Table configuration with height-adjustable ERU and Greta Chair, accompanied by Credenza storage unit.

Atlas Loop Table configuration with ERU and Thrill Mesh Plus Chair, glass door & HDU storage units, 4 seater discussion table with Thrill-Mesh chairs and connected Media Unit.

Designed for Collaboration

The Atlas range features **discussion tables** with built-in wire management solutions that can be positioned adjacent to executive workspaces and media walls. This enables executives to seamlessly switch between focused work, in-person discussions, and video conferencing, thereby creating a versatile and efficient workspace.

Angles of Authority

The bold angular tabletop makes a statement of authority and innovation. The unique design of the Angular Main Table allows the Top Leadership to sit at an optimal angle for screen-based discussions while maintaining a separate pod table at the far edge for face-to-face interactions.

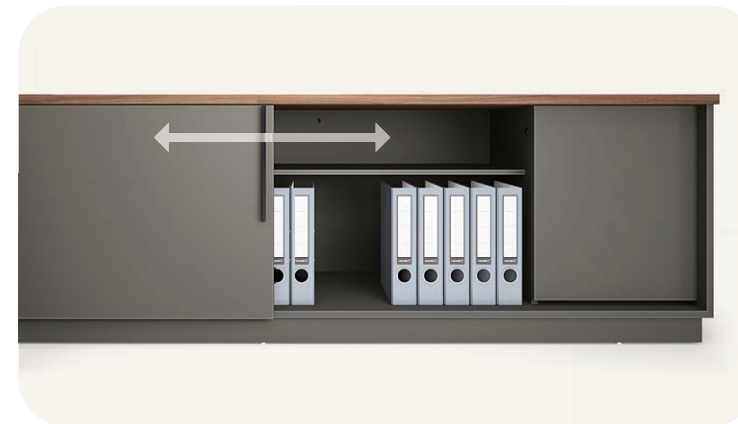

Atlas Angular Table configuration with Thrill Mesh Plus chair, and Glass door storage units.

Attention to details

Bevelled Edge

Bevelled edges in Atlas range offer a sophisticated and safe workspace, combining elegance with durability, thereby enhancing the overall aesthetic and functionality for professionals.

Optimal Storage Space

Designed for compact C layouts, our sliding doors glide smoothly with minimal effort eliminating swing clearance needs, making them ideal for smaller offices.

Hinge Door Panels

The Hinge Door Panel in ERU features a secure cam lock and ergonomic handle for easy access, while concealed hinges maintain a sleek, modern aesthetic.

Corner-Space Utilization

The sliding door back unit in Atlas is specifically designed to accommodate tight layouts where the return table terminates into the back unit. Traditionally, these layouts would create dead spaces, which has been cleverly solved in such C-shape configurations of Atlas Executive Desktop Suite.

Back Units Options

Glass door and HDU back units with cam locks provide a perfect blend of security, style, and functionality, allowing for a modern aesthetic while ensuring seamless integration with existing architectural elements such as windows and partitions. These allow for a tailored workspace setup.

Tech Integrated Solutions

The collection features special return units (ERUs) that support large displays on articulated mounts, with built-in plug-n-play power, swivel movement, and audio-visual provisions for seamless working. Furthermore, the range offers monitor arm as a retrofit solution and a standalone media unit, ensuring optimal visibility and accessibility.

Attention to details

Convenient Charging Function

Simply slide the plate to access hidden sockets and cable routing holes in the ERU. Additionally, surface mount power boxes are integrated into the main table, and oblong power cubbies are conveniently located in pod area of Angular Table.

Integrated Desk Pad

Enhance your workspace with a desk pad that provides a smooth surface for writing & using mouse, protects from scratches and promotes better wrist & arm posture, while keeping your desk organised.

Soft Closing in Drawer Units

Soft-closing mechanisms on all drawers, sliding doors, and hinge doors ensure quiet and smooth operation. This not only enhances convenience but also reinforces the premium quality of the suite.

Wire Raisers for Easy Maintenance

Atlas discussion tables feature integrated Vertebrae Wire Raisers, ensuring a clutter-free understructure and easy cable management for a sleek, modern look.

Atlas Wall Side configuration with L-shaped arrangement with ERU, Credenza, Media unit and Discussion table and Thrill Executive Chair.

Addressing space constraints with wall-side configurations

The introduction of **wall-facing table options** allows executives to position their primary workspace along walls or windows, establishing a structured yet open workspace, promoting both focus and interaction within the same environment.

Modern layouts for modern offices

The wall-facing tables and credenzas in the Atlas range can be placed side by side horizontally to effectively fit into compact spaces. These features provide functional workspaces without compromising on usability or aesthetics, allowing Interio to cater to offices with varying spatial limitations.

Mix-and-Match: Wall Side Units

Main Unit (comprising of Table & ERU)
