The GREENGUARD Certification Program gives assurance that products designed for use in indoor spaces meet strict chemical emission limits, which create healthier interiors. The certification qualifies for LEED credits and IGBC credits.

In keeping with the Godrej policy of continuous development and improvement, the design, dimension and specification may be updated without prior notice or obligations. Form, Colour and Finish of product in this document are representative of design intent and may vary from actual. Colour options depicted in this catalogue are as close to what modern printing processes allow. All dimensions are in 'cm' and are subject to commercial tolerance. Our products are meant for indoor use only.

Fusion
World-class Lab Furniture

Cutting-edge labs for cutting-edge research.

A perfect
Lab partner.

More to choose from

Turn Key

Take away the hassle of dealing with multiple contractors and choose Interio to provide a comprehensive laboratory solution.

We offer a complete "TURN KEY" solution for your new build or laboratory refurbishment project including designing of lab layouts, space planning and installation of other utility services.

Installations including construction, furniture, mechanical and electrical services are done by our own team. This ensures continuity of work, reduced on-site times and project responsible installers.

Covalent

Covalent offers you:

- Flexibility to fit into demands
- Aesthetics for interiors
- Modularity of workspace
- Utility for multitasking
- Adaptability to needs
- Adjustability for personalisation
- Sturdiness that lasts
- Contemporary classy looks
- Ergonomics at work
- Space saving design

The ingredients are all there. Create your formula for success from it.

Robust Air Fume Hood

Robust Air Fume Hoods, as the name suggests, are robustly designed to contain adequately as per stringent EN 14175 Part 3 specifications besides conforming to ASH RAE 110, offering unmatched safety to fume hood users. It also gives substantial energy savings to the facility owner thereby increasing the overall GREEN QUOTIENT of the laboratory installation greatly.

Robust Air Fume Hoods have passed the Pressure drop test, Sash suspension test, Sash displacement test, Protection against splashes, Sash stop & Alarm test and Illuminance test.

Allied products and Accessories

Valves & Faucets

Lift & Turn Type Valves are available in powdercoated finish. Knobs can be colour coded as per standards.

Emergency Shower cum Eye Wash provides extra safety for the people working in the laboratory. It follows international safety standards. It is made from stainless steel or ABS.

3-way & 2-way water flow faucets available with powder-coated finish.

Eye-Wash
Safety can also be ensured through hazard averting precautions such as an eye-wash unit that can be integrated into the lab setup.

Accessories

Polypropylene Drop-In Sink

Stainless Steel Sink

Ceramic Sink

Peg Board

Epoxy Sink

Polypropylene Cup Sink

Interio by Godrej offers drop-in sinks in a variety of configurations and materials like ceramic, stainless steel and polypropylene which are highly resistant to acids, solvents and salts. Also available - cup sink in polypropylene.

Allied Products

Laboratory Seating

To ease the rigorous of working personnel, we offer ergonomic, task intensive chairs and revolving stools for any lab environment. We have a wide range of sturdy, long lasting laboratory chairs and revolving stools for a comfortable working experience.

Anti-Vibration Tables

These tables are effective for isolation of precision equipment from floor generated vibrations by environmental means. Used for applications where instrument usage and accuracy of readings are affected by vibrations like for weight balances, galvanometer and more. Made from a tubular frame with cover panels, kadappa with granite top and with anti-static rubber pads at the bottom. The load capacity of the frame is '2.50kg UDL.

Anti-static rubber pads

Successful laboratories work on a partnership between man and machine. With the ever-evolving nature of scientific pursuit, today's laboratories have to be smarter, more intuitive and highly sophisticated to match.

Presenting the Fusion Series of world-class laboratory furniture from Interio by Godrej. Sturdy and contemporary, its every aspect is engineered precisely to meet your exacting needs, making it the perfect tool for any laboratory.

The Fusion Series uses prime quality CRCA steel for a strong understructure that can bear the load of heavy laboratory equipment. Its superior powder-coated finish makes it resistant to corrosion, which is a common phenomenon in laboratories.

Recess-type

Reagent Shelf Options

Fixed

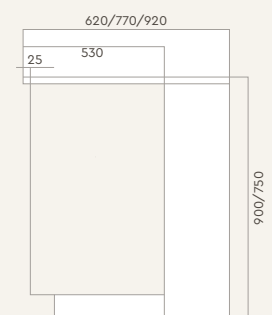

On Upright

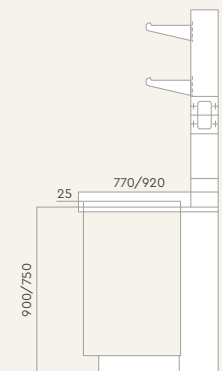

Tested as per SEFA 8M

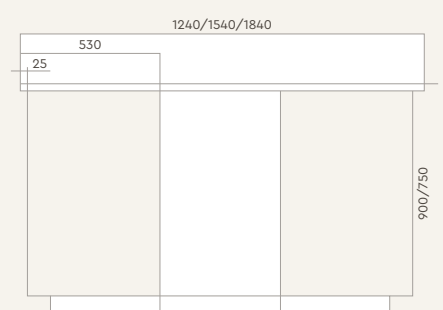

Wall side module without an Upright and Reagent shelf

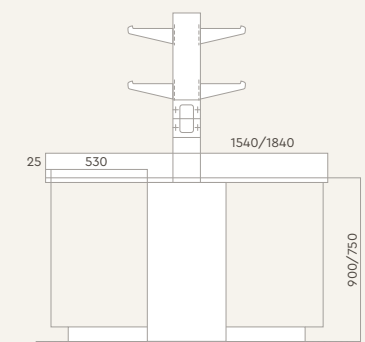

Wall side module with an Upright and Reagent shelf

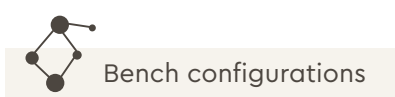

Island module with an Upright and Reagent shelf

Island module with an Upright and Reagent shelf

Options for everybody

Corner configuration
Reduces corner space wastage, ensuring maximum utilisation.

Wall configuration
Enables usage of the corner to corner space in continuum.

Island configuration
Completes the laboratory environment by facilitating seating around the table.

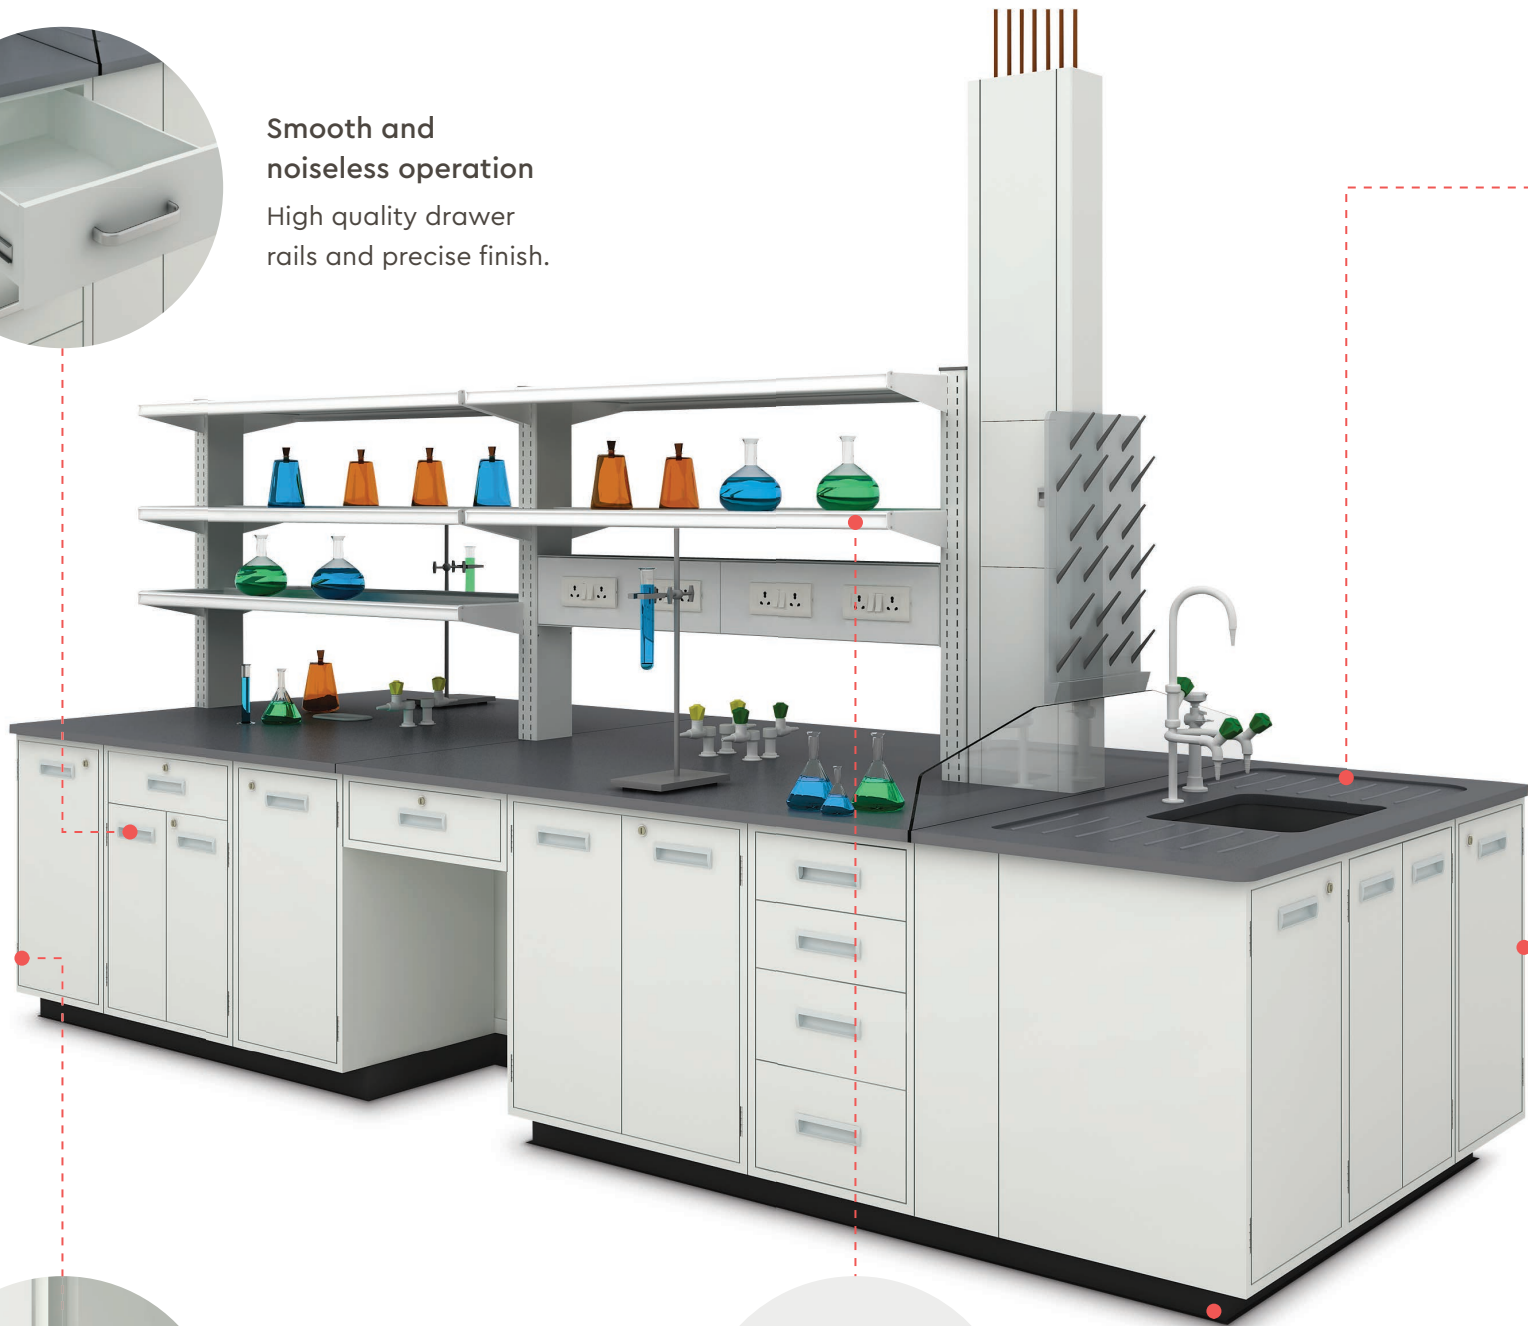

The Fusion Series

Crafted to perfection

Smooth and noiseless operation
High quality drawer rails and precise finish.

Hygiene and safety
Sink area with water splash guard to avoid water splashes and spillage.

CRCA mild steel with powder coating
Steel with a higher percentage of carbon for superior strength and for avoiding dents. Pure Epoxy powder coating for remarkable corrosion resistance.

Stainless steel and non-corrosive hinges
These hinges have a long life as they do not corrode in the lab environment due to exposure to chemical fumes and hence the doors remain intact and do not misalign in the long run.

Flexibility and adjust ability
Flexible reagent shelves with height adjustable shelf mounts.

Generous toe space
Bottom skirting is displaced towards the inside so that there is sufficient toe space and the users can work comfortably while standing close to the workbench.

Key features

Internal easy height adjustability
The levers at the bottom can be easily adjusted from the inside of the cabinet to adjust the height of the workbench as desired.

Adjustable shelves
This feature allows to adjust the height of the shelf to accommodate taller storage items.

Removable service access panels
Access Panels in leg spaces have clips that can be used to remove the panel temporarily to give access to the service lines that lie in the gap beyond them.

Storage cabinet's removable back panel
Inside the storage unit, the back panel is removable to give access to the service lines that lie in the gap beyond them.
