Growing need for healing and caring healthcare spaces

As medical care for Short Duration Therapeutic/Medical Treatments improves in India, healthcare spaces are constantly expected to deliver better care and more responsive spaces along with professional expertise.

Patient experience is an important aspect of what goes into making good dialysis and chemotherapy treatment chairs.

At Interio, to help put the patient at ease, we have designed a multi-utility chair that feels comfortable, is easy to use and gives the patient a sense of control during the procedure. For we believe, the better your patients feel, the faster they will heal.

The smallest detail can put your patient at ease

Sometimes, all a patient needs while undergoing a routine procedure is a chair where the headrest pillow can be adjusted to just the right convenient spot.

It may seem like an insignificant detail to many, but we understand what discomfort can feel like if a procedure is to last anywhere from 30 minutes to 5 hours. Healix is ergonomically designed to meet the treatment and comfort needs of patients across different departments of the modern healthcare spaces.

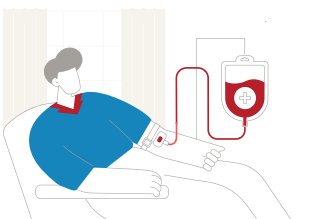

Ideal for departments of:
Oncology, Nephrology and Hematology

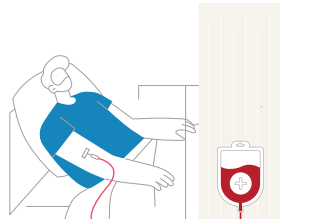

Dialysis

Chemotherapy

Blood Transfusion

Blood Extraction

Let your patients
choose their
position of comfort

Motorized movement for

- Backrest adjustment
- Legrest adjustment
- Height adjustability
- One-touch Auto-CPR function
- Trendelenburg function
- Auto Contour feature

Manual movement for

- Armrest
- Footrest adjustability
- Head pillow adjustment

We know your patients mean the world to you. And you are always looking to go the extra mile to make their treatments less stressful, and help them heal faster.

To make your spaces more inviting, restful and seamless, we created Healix – an ergonomically designed chair to serve as a seat for recovery and healing.

This multi-utility chair lets your patients control the angle of recline, allows legrest adjustment, and offers lumbar and knee support.

Healix, a well-cushioned chair, comes with a host of motorized and manual adjustments – offering patient comfort and caregiver ease of operation.

Healix is a motorized chair that has clinical positions with adjustability of Height, Backrest, Legrest & Trendelenburg.

- Has additional positions that include Auto Contour (that ensures simultaneous movement of the back and the leg rest).
- Auto CPR button for emergency purposes.

Available in 2 variants: Standard option and the other with a USB charging port for Mobile/Earphones charging.

Compliant with IEC 60601-1, IEC 60601-1-2.

Invite your patients to sit back and relax

Healix goes from being an ergonomic chair to a full-size bed within minutes. This increases the comfort levels for the patient and reduces the stress that comes with having to handle patients physically across different equipment.

- The chair's **stable and durable design** gives your patients and doctors the confidence of reliable equipment and infrastructure during the critical procedures.
- You can ensure **high standards of hygiene** with non-porous upholstery that prevents leakages and can be easily wiped down between patients.

A chair that caregivers will love

Amidst the stressors that come with the medical professional, Healix comes as a breath of fresh air.

As mentioned earlier, it comes with intuitive motorized and manual features that make staff and patient interactions more convenient. For instance: 2-Dimensional (Sway out & Tilt) Armrests, Diagonally Lockable Castors.

The motorized features are easy to operate, and help keep patients and in turn your staff happy, productive, and more focused on critical tasks.

Sway out handles make it easy for caregivers to access patient

Sways up to 90 degrees

125 mm Twin Wheel Castors for easy manoeuvrability

The details that make Healix special

Castors with lock for safety.

Rubberised handle with optimum grip assists in navigating the chair.

Ample lumbar support for long hours of sitting.

Adjustable armrest for greater comfort.

Footrest with manual adjustability, legrest with motorized adjustability.

OBT mounting provision on either side of the chair.

Standard Accessories

Keeping key essentials within reach helps healthcare staff take better care of patients, without having to move away at critical moments of care.

Head Pillow

This manually adjustable accessory is cushioned and free moving, allowing the patient to adjust it as per their comfort.

Exercise Ring

An intuitive somatosensory ring that gently stimulates the arm to maintain comfort and blood circulation during procedures. Additionally ensuring better vein visibility for precise injection.

Remote Handset

with a U-shaped mounting provision on outer sides of both the armrests.

Tissue Roll Holder

Keeps tissue within easy access, enhances functionality.

Adjustable Footrest

ensures sufficient comfort for users of varied heights.

Optional Accessories

Host of optional accessories to enhance patient comfort and equipment functionality.

OverBed table
(mountable on either side of the chair)

Lumbar – Knee pillow

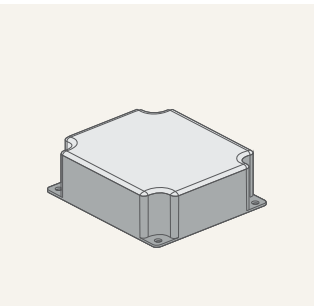

Accessory stand with mounting provision for infusion pole

MS saline stand on castors

Mounting attachment for saline stand

Battery backup

World Class Standards

- IEC 60601-1 Medical Electrical Equipment: General requirements for safety and essential performance
- IEC 60601-1-2 Electromagnetic compatibility (Requirements & Tests)
