Better Healthcare For Everyone

Godrej Interio Healthcare creates environments that support the healing process. By aligning efficiency with empathy, our healing environments maximise the wellbeing of all stakeholders involved: Patients, Caregivers, and Doctors.

We believe that a good healing environment focuses on the patients and their relatives, while simultaneously helping caregivers become more efficient and doctors more comfortable. Our design philosophy adopts a human-centric approach to increase the harmony between spaces and products, resulting in an improved patient-doctor interaction.

Additionally, we bring our expertise in OCE space design to create people-centric spaces such as canteens, lounges, waiting areas, meeting and video conferencing rooms, and storage solutions. We can design and deliver a complete healthcare space as per your budget, and furnish the same. Our Healthcare furniture products are ISO 13485 certified, USFDA registered, and rated for CE certification from the European notifying body.

Space is our playground. And it's our endeavour to make life the winner.

Studies that Inform our Designs

Space design is the study of the workflow between various stakeholders.

Our recent study revealed that Caregivers, the vital stakeholders in the healing process, walk 8-10 kms in an 8-hour shift due to incorrectly designed spaces.

Here are some of the other insights from our research:

- More than 90% of the nursing staff complained of some form of MSD (musculoskeletal disorder)
- The most prevalent pain areas were the legs (56%), followed by the knees (51%)
- 51% complained of upper and lower back issues
- 61% also experienced neck pain sometimes
- 41% of the nursing staff took 1-3 days leave, whereas 7% of them had taken a leave for 4-6 days within a span of two months to manage their pain. This indicates a clear productivity loss to the organisation.

Challenges that Motivate our Goals

Everyday, Caregivers strive hard to provide superior healthcare services to their people. It's their zeal that motivates us to create better and safer healing environments for everyone. We learn from their challenges and design products and develop spaces to create an intuitive, dynamic, and ergonomic healing environment.

Thus, our goal is to become the ultimate facilitators for care, and the support system that patients, family members, caregivers, and doctors can rely upon.

Designed For All Medical Needs. General, Multiple, or Specialised.

Our design team doesn't limit itself to improving established solutions. Our products cater to key customer needs across a variety of healthcare environments, while also being equipped to simultaneously serve multiple other use-cases as well.

Here are the parameters that govern Godrej Interio Healthcare products:

Global Safety Standards

All our products adhere to the most stringent global standards and quality certifications. We make sure that every product created has:

- No Sharp Edges
- No Electrostatic Charge
- No Cold Shock
- All Entrapment Zones Taken Care Of
- Fall Protection

Uncompromised Comfort

We believe that a safe healing environment is one that's not only comfortable to the patients, but also to their caregivers. That's why our products come with:

- Easy-To-Use Controls/Crank Handles
- Ergonomic Design
- Easy Manoeuvrability
- Compatibility With Associated Products and Surroundings

Assured Hygiene & Easy Maintenance

Godrej Interio Healthcare products are coated with bacteriostatic powder to ensure infection control and better pre-treatment procedures. Their simple construction provides easy access for cleaning and fumigation.

Partnering India In Building A Better Tomorrow.

We are India's largest home & institutional furniture manufacturer since 1936. With a focus on Make in India products, manufactured in state-of-the-art facilities meeting global design, quality and test standards.

Supporting modern nation-building with products, services and initiatives geared towards a greener, healthier, progressive and prosperous future.

125 Years Of Legacy. 1000+ Projects Delivered Annually.

With a rich legacy that spans over 125 years, Godrej is a pioneer across industries in India.

Led by India's largest in-house furniture design team, our aim is to transform spaces with thoughtfully-designed furniture. And our goal is to create brighter homes and offices with products that have the highest design quotient in aesthetics, functionality, and technology.

Godrej Interio at a glance

- India's largest home & institutional furniture manufacturer, since 1936; supporting nation building
- 95% ex-works TOC performance through project tools and dedicated team to ensure on-time project delivery
- Unique customization capabilities
- Winner of 34 India Design Mark Awards till date

Fusion

Features

- The contemporary, cutting-edge Fusion lab furniture design is engineered to meet the precise needs of the scientific community. The world-class lab setting is sure to provide inspiration for budding researchers and scientists.
- Attention to every detail has been given to incorporate practicality, flexibility, and ergonomics for an effective learning environment.
- Flexible configuration of workbench: Corner setting maximises floor space. Wall setting provides a corner-to-corner continuum of workspace. Island setting facilitates group seating and collaboration.
- Adjustable height of workbench offers personalised ergonomic comfort.
- Prime quality CRCA steel understructure and superior powder-coated finish can bear the load of heavy equipment and is resistant to corrosion. Pure Epoxy powder coating on storage surfaces minimises the risk of corrosion.
- Adjustable height reagent shelves accommodate a range of storage possibilities. Smooth and noiseless operation of drawers with high-quality drawer rails.
- Access panels in leg spaces have clips that can be used to remove the panel for temporary access to service lines. The back panel of storage units are removable giving access to service lines.
- Pair with ergonomically designed stools (revolving or stationary) or the Scintilla Highchair.
- Option of turnkey installation.

Panel-based Systems:
Wish

Download PDF

Features

- A workstation with numerous configuration possibilities.
- This contemporary concept is not only pleasing to the eye, but also highly flexible in nature, allowing office layouts to be planned around existing oddities within the workspace.
- It's designed to be able to fit into any office layout, by creatively utilising even ungainly outcrops such as pesky columns into the design of the workspace layout.
- This capability of being highly accommodative is possible because of the ingeniously-crafted horizontal panels that comprise its structure.

Details

- The sleek gapless panels with their proportional visual lines provide the workstations with a modern look and feel.
- Creative layout plans can result in a variety of looks for offices, such as a single colour monolithic look, a classic wooden look, a multicolor tiered look, an artistic acrylic finish, or even a post-modern transparent or translucent glassy look.

Sliding Door Unit

Features

- Equipped with adjustable shelves that provide flexible space options for various storage needs.
- Its sliding door construction makes the most of your aisle space.
- Snap-on die-cast lock keeps it secure, while making it aesthetic.
- Comes with plastic rollers with steel ball bearings for effortlessly smooth door movement.
- Lower height units come in wooden and metal top options.

The GREENGUARD Certification Program gives assurance that products designed for use in indoor spaces meet strict chemical emission limits, which create healthier interiors. The certification qualifies for LEED credits and IGBC credits.

In keeping with the Godrej policy of continuous development and improvement, the design, dimension and specification may be updated without prior notice or obligations. Form, Colour and Finish of product in this document are representative of design intent and may vary from actual. Colour options depicted in this catalogue are as close to what modern printing processes allow. All dimensions are in 'cm' and are subject to commercial tolerance. Our products are meant for indoor use only.
