LUFT 2.0

Seating the future: Meeting the demands of high-traffic spaces

Modern public spaces are evolving to be sleek, stylish, durable, and comfortable. With India's rapid economic growth, these spaces have become an essential part of our urban experience.

This is where Luft 2.0 makes its mark.

As passenger and customer footfalls rise across airports, banks, hospitals, and bus terminals, our next-generation seating systems are built to meet the demands of today's dynamic environments. Designed for effortless assembly, enhanced functionality, and long-lasting durability, Luft 2.0 delivers comfort, supports digital needs, and offers robust performance. Its refined aesthetics and easy maintenance ensure it blends seamlessly into any setting-making every space more welcoming, efficient, and future-ready.

2 SEATER

A versatile public seating system for transit areas, Luft 2.0 offers a sleek, modern aesthetic that is also highly functional.

3 SEATER

Offered in solid colours with premium-grade PU upholstery, this seating system is built for durability while ensuring lasting comfort during long waiting hours.

4 SEATER

Sleek public seating,
designed and crafted for
the new India.

Robust. Comfortable.
Durable. Modular.
Aesthetic.

5 SEATER

True to Interio's design
expertise, this seating
system combines
ergonomic comfort with
long-lasting durability
and is offered in multiple
configurations to suit
diverse needs.

Making stopovers peaceful

Today, airports are full of activity ranging from professionals looking to get their presentations done to families trying to keep their little ones entertained while they wait.

Luft 2.0, with ergonomic contours for convenience, is designed to make the airports more user friendly and classy – enhancing the overall travel experience.

Offering comfort in stressful moments

Waiting in the hospital can be emotionally and mentally draining for the patient's family. As healthcare spaces become more empathetic, right seating in the lounge waiting area can be a key differentiator.

The modular design of Luft 2.0 helps create a comfortable environment with contoured lumbar cushioning and seating that can be seamlessly integrated.

Comfort you can bank on

Thoughtfully designed seats with waterfall edge and special grade PU make Luft 2.0 a great choice for high traffic areas in banks.

Comfortable and spacious, Luft 2.0 comes in 3 colours that work well with the house colours of several banks. The side tables enhance functionality – providing space to keep files and handbags, fill forms, etc.

Adding oomph to road and rail journeys

Roads and railways have been the lifeline of Indian travel for decades. As the government invests in expanding the nation's transport connectivity, travel by road and railways is going to see a new level of growth. Luft 2.0 is thrilled to be offering comfortable, modular and durable seating for India's travel terminals.

Designed for busy zones, this seating system ensures comfort for short and long waits.

Product Variants

Luft 2.0 offers customizable configurations to adapt to different spatial requirements:

- Available in 2 – 5 seater configurations

10. 5 seater

Key Features

Luft 2.0 offers customizable configurations to adapt to different spatial requirements.

Contoured Lumbar Cushioning

This gentle contour not only cradles your lower back for superior comfort but also lends a visually soft and inviting aesthetic.

Ergonomic Design with Aesthetics

The seat features a waterfall edge, carefully designed to reduce pressure on the thighs and provide extended comfort.

Robustness

Contoured seat and back is made from a steel internal support structure and a special grade PU with high density and wear resistance to the surface.

The Leg and Arms are made from Die-cast Aluminium with support beam from Extruded Aluminium.

- Precision / Accuracy
- No rust
- Ease in cleaning
- Strong / Durable

Power Supply Unit

Power box as accessory, featuring socket and both Type-C and Type-A USB ports for ultimate convenience. This addition ensures seamless charging for all devices, from smartphones to laptops.

Universal
Socket of 13A

Type C

Centre and Side Tables

Luft 2.0 features centre and side tables in three different sizes, thoughtfully designed to cater to a variety of needs.

The smallest size
is perfect for holding personal items like a phone or coffee cup

The medium size
offers ample space for books or tablets

The largest size
accommodates laptops or larger essentials.

LUFT 2.0 Designed to enhance customer experiences

Built beautiful. Built strong.

Thick sections and edges
Give a robust look and performance.

Broad seat and back surface
Optimal comfort during long wait time.

Arms between each seat
Provide privacy to each user.

High grade materials and processes.

Contoured seat and back
Made from a steel internal support structure, and a special grade PU with high density and wear resistance to the surface.

Leg and arms
Made from Die-cast Aluminium with support beam from Extruded Aluminum.

Highlights

Designed for heavy traffic spaces

Luft 2.0 is solidly crafted to withstand excessive wear and tear, moisture, variations in temperatures, spills and more.
