Introducing

Posture Perfect™

Powered by TrackBack Technology

A major breakthrough
in the evolution of
chair design.

A healthy posture. A healthier life.

A study conducted by the Interio Ergonomic Research Cell says that 76% of the working population experiences Musculoskeletal Disorders (MSDs) from working long hours while sitting in a fixed position.

As users sit for more than 10-11 hours of a workday, it becomes a major risk factor in office jobs, leading to back injuries. However, adopting ergonomic work postures and following best practices can add to your productivity, mood and overall well-being.

Why conventional office chairs aren't the best?

As users recline in a chair, the shape of the spine changes based on the angle between the thighs and torso. The larger the angle between the thighs and torso, the greater the curvature of the lumbar spine. Most chairs in the world market cannot adjust for this complex movement of the spine, leading us to lose support in the lower back area as we recline.

Movement of Hip Joint
During Recline

Most chairs in the world market cannot adjust to this complex movement of the spine, leading us to lose support in the lower back area as we recline.

Loss of Support in
Conventional Office Chairs

A chair that backs your back. Unconditionally.

At Interio, we took our work chairs back to the drawing board given how normal it has become to have backaches due to long sitting hours. And our decades of research and development have led us to a revolutionary breakthrough seating solution – a reflection of our expertise and technological advancement.

The Interio PosturePerfect Chair is backed by the incredible TrackBack Technology that transcends the current landscape in Smart Body Kinematics.

It's the world's first chair to follow the natural body movement and adjust to the Lordotic Angle* changes of the body to offer uniform back support in every position of recline.

*Lordotic Angle is the angle between the upper plane of L1 Lumbar Vertebrae and the upper plane of S1 Sacral Vertebrae.

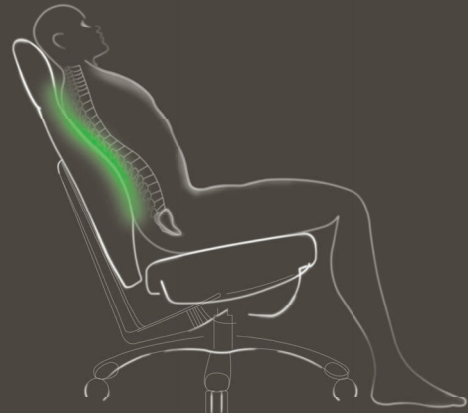

PosturePERFECT always has your back.

Based on scientific research using the pressure mapping technique, Interio TrackBack Technology demonstrates a tendency of consistent support in both upright and reclined postures with continuous back support and exerts even pressure in all positions of recline, thereby giving full back support from top to bottom.

Conventional Office
Chairs

Most chairs in the world market cannot adjust for this complex movement of the spine, leading us to lose support in the lower back area as we recline.

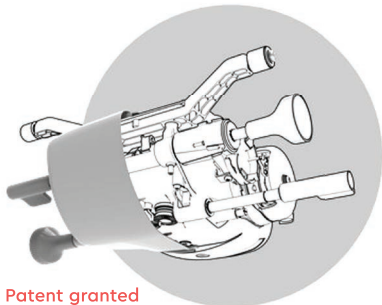

PosturePERFECT
Chair

Perfect back support and uniform pressure in all positions of recline.

Powered by the Globally Patented TrackBack Technology.

What makes Interio PosturePerfect Chair the perfect chair is its globally patented TrackBack Technology. A revolutionary mechanism that brings forth the best of Smart Kinematics, tailored to your convenience. It makes it your perfect companion at work that helps support your back in every position of recline. Even when you bend forward to work at your desk, it ensures you're always at your productive best, healthy, and happy.

Patent granted

How does PosturePerfect work?

No matter the recline angle or position, PosturePerfect backs your back with the most Advanced Ergonomic technologies. With incredible adjustability, PosturePerfect brings you a plethora of features that will help you align and maintain a correct posture at all times. Let's check them out.

The Perfect Back Height

Take the back of the chair higher or lower to ensure your back is supported firmly and aligned with your body contour.

The Perfect 4D Arm Support

Adjust the height, width, depth, and the swivel-in movement of armrests so that your arms sit comfortably, parallel to the ground.

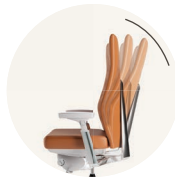

The Perfect Seat Depth

Push your seat forward or backward to maintain the perfect gap of 2-3 fingers between the seat edge and the back of your knee.

The Front Tilt Lock

To ensure constant support, the lever will tilt the backseat forward when you're working at the desk.

The Tilt Limiter Technology

It enables you to adjust your back tilt angle in 3 positions- Upright, half-recline, and full-recline.

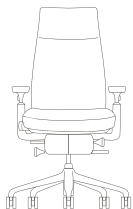

The Perfect Seat Height

To always maintain your feet at a perpendicular angle to your thighs when at work.

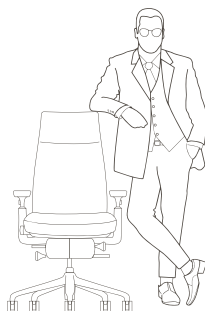

The Perfect Recline Tension

With easy knob rotations, you can adjust the recline tension as per your body type.

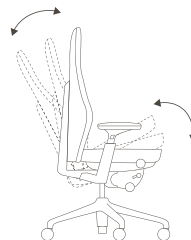

The perfect chair mechanism

It ensures constant back support in all positions of recline along with comforting the rest of the body contact points.

Contemporary Design

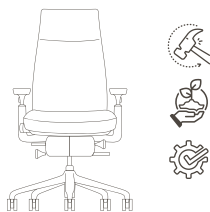

It looks premium, authoritative and sleek.

Advanced Ergonomics

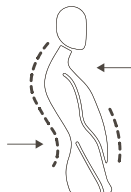

With best-in-class adjustment features, it ensures the perfect seating solution for all body types.

Why we're absolutely sure about PosturePerfect

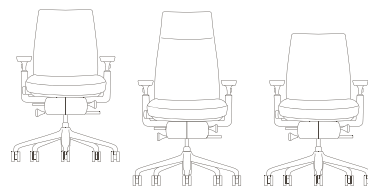

Performance to perfection

It's robust and durable. The entire range is tested for stringent BIFMA and EN performance standards.

Unmatched Comfort

With even and constant pressure distribution, it ensures no loss of lumbar support or stresses across any part of the body in any seating position.

Choices in Colour and Fabric

You can tailor PosturePerfect to your taste by choosing its fabric, upholstery, colours, and more.

Lend PosturePerfect your taste.

Available in various options, PosturePerfect offers you the power and liberty to pick a variant as per your taste, office aesthetics, and styling. The upholstery finishes come in **3 stylish variants**. And each variant can be customised in **4 ranges of colours** that are picked by the nation's best workspace designers. These variants and colours span across the spectrum from classic to contemporary, making PosturePerfect an easy, smooth, and impactful fit in your office space, interiors, and architecture.

It comes with impressive credentials

Ergonomics, aesthetics, environment-friendly – postureperfect delivers on all fronts. What's more, we have the credentials to wow the most discerning space planners and architects! And of course, our happy users!

BIFMA Level 2: The product(s) meet(s) all of the necessary qualifications to be certified for the following claim(s):

- LEVEL® 2
- Conforms to the ANSI/BIFMA e3-2019 Furniture
- Sustainability Standard

India Design Mark is a design standard, a symbol, which recognises good design. It symbolises excellence in form, function, quality, safety, sustainability, and innovation and communicates that the product is usable, durable, aesthetically appealing and socially responsible

Certificate of Ergonomic Design & Performance 2023-2025 is issued by **All India Occupational Therapists' Association.** This certifies the product as per the Ergonomic Design Criteria of Safety, Fit & Comfort and confirms that the product meets the Performance Evaluation Criteria

UL 2818 – 2022 Gold Standard for Chemical Emissions for Building Materials, Finishes and Furnishings

GREENGUARD certification means the product has met industry standards for low emissions. Commercial furniture and furnishings are tested in accordance with ANSI/BIFMA M7.1-2011(R2016) and determined to comply with ANSI/BIFMA X7.1-2011(R2016) and ANSI/BIFMA e3-2019 Credit 7.6.1, 7.6.2, and 7.6.3.

Seating products are modeled in the seating environment with a ventilation rate of 24.8 m³/hour. Products also determined compliant in accordance with California Department of Public Health (CDPH) Standard Method V1.2-2017.

GreenPro certification assesses the environmental performance of products and services. Issued by CII-Green Products and Services Council, it certifies that the product meets the requirements of GreenPro Ecolabel and qualifies as Green Product.

Pro-tips

For optimum comfort and convenience, make sure your chair enables you to do the following:

1.

The chair and its back recline simultaneously to support you in all seating and reclining positions.

2.

There's a 3-finger gap between the seat edge and the back of your knee.

3.

Your shoulders are relaxed at all times.

4.

Your thighs are parallel to the ground and your eyes are parallel to your laptop screen.

5.

Your arms are parallel to the floor and are resting comfortably.

It's a chair
that backs
your back.
Go on,
take a seat.
