Storages, to make space for work and more.

Modern workspaces aren't typical offices. They are flexible spaces where solo work, collaborative work and team work, all happen in parallel. Storage systems that innately fit into these multifunctional spaces, transform them into areas of productivity, creativity, satisfaction and well-being.

Godrej Interio's modular storage systems are designed for evolving workspaces. Designed to cater to the evolving ways in which we use workspaces today, and to make space for work to become enjoyable.

Work

Spaces for work

Spaces where teams and individuals work with focus, are more conducive for productive work when they are clutter-free, with storage that's within reach.

Work

Work

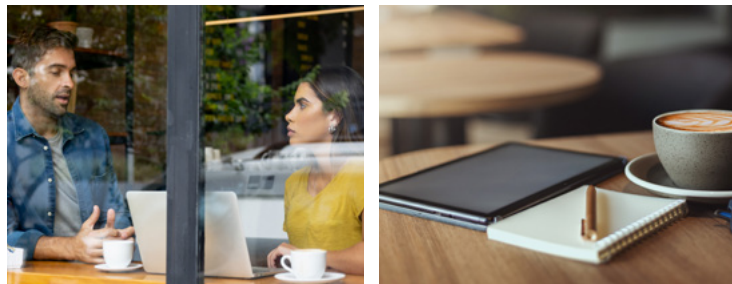

Converse

Break-out Spaces

Spaces designed to break away from the hustle and bustle of the open floor for a moment of respite or a quick chat, are important for the wellbeing of the workforce. These spaces can be made inspiring and creative with interesting displays and bookshelves.

Focus

Private offices

Great leaders, nurture great teams. A private office is not only meant for the person whom the office belongs to, but is also a place that the team aspires to and is inspired by. Contemporary and modular storage systems that can be customised to one's needs, and that serve varied purposes – display and storage – can make private offices feel like private sanctuaries.

Collaborate

Spaces for Collaboration

A lot can get done when teams work collaboratively. Mixed-use spaces where collaboration and solo-work can happen at the same time are a common part of workplaces where agility is key to success. Tall units, that can be used to create referencing zones, under-storage for everyday storage, and aisle storage that segregates spaces informally are ideal for such places.

Collaborate

Organise

Organise and Store

Spaces where we organise and secure important documents, books, referencing materials, or personal items, can be done tastefully to induce a sense of calm and peace – if we use the right storage that's robust, and also aesthetic. After all, they are just as much a part of the office and an important one at that.

The GREENGUARD Certification Program gives assurance that products designed for use in indoor spaces meet strict chemical emission limits, which create healthier interiors. The certification qualifies for LEED credits and IGBC credits.

In keeping with the Godrej policy of continuous development and improvement, the design, dimension and specification may be updated without prior notice or obligations. Form, Colour and Finish of product in this document are representative of design intent and may vary from actual. Colour options depicted in this catalogue are as close to what modern printing processes allow. All dimensions are in 'cm' and are subject to commercial tolerance. Our products are meant for indoor use only.
